Areeva Solutions, LLC is an agile, AI-powered small business delivering data-driven IT and consulting services. We specialize in intelligent automation, SharePoint solutions, financial oversight, and AI-infused program management. We also provide end-to-end, AI-enhanced grants management services—streamlining the full lifecycle from NOFO to closeout with compliance, visibility, and performance at the core. Areeva empowers clients to unlock insights, optimize operations, and drive innovation with confidence.

CORE SERVICE AREAS

Next-Gen AI & Data Intelligence

- Develop secure, Gen-AI virtual assistants
- Automate data extraction and decision-making
- Establish AI risk and compliance frameworks
- Visualize insights with BI dashboards
- Use predictive analytics to boost ROI
- Build AI proofs of concept to showcase value

SharePoint Modernization Services

- Migrate legacy systems into secure SharePoint
- Design enterprise-grade SharePoint environments
- Automate metadata tagging and classification
- Preserve version history and document lineage
- Enhance discovery with filtering and search tools
- Ensure compliance with secure access controls

Advanced Financial Management & Oversight

- Enable real-time oversight with dashboards
- Forecast and model risk using AI tools
- Automate financial reporting processes
- Streamline budget execution workflows
- Maintain compliance with EMV tracking
- Optimize pricing with analytics

AI-Driven Project Management

- Automate planning and scheduling with AI
- Use workflows to eliminate process delays
- Coordinate projects via live dashboards
- Align tools with agile PM best practices
- Monitor KPIs with predictive analytics
- Optimize timelines with intelligent tools

Grants Management Lifecycle Solutions

- Support full lifecycle from pre-award to closeout
- Validate applications with AI automation
- Monitor performance via dashboards
- Centralize tracking and documentation
- Use analytics for compliance oversight
- GrantSolutions modules and audit-ready tools

Intelligent Acquisition Lifecycle Management

- Management procurement lifecycle with agility
- Automate RFX and vendor workflows using AI
- Enable real-time document collaboration
- Deliver insights with dynamic dashboards
- Ensure audit readiness across all phases
- Leverage \$1B + federal acquisition expertise
